

## Versatile imaging solutions to study complex biological systems

From the study of vascular disease in preclinical models to the development of novel treatments, Miltenyi offers the imaging tools you need. Complete workflow solutions include clearing reagents and antibodies for 3D immunofluorescence microscopy, automated light sheet imaging systems for 3D imaging of large samples and multiphoton microscopes allowing in vivo imaging deep into tissue at subcellular resolution.

Be sure to visit our booth and attend our talk leading the Miltenyi Biotec sponsored session:

### Deep insights into the vascular system of the bone marrow

David Reismann, PhD

Monday, October 25 from 3:30-4:00pm ET
